

# Vehicle Stock Monitor

Batch vehicle stock checking

Getting full vehicle details on a large fleet of vehicles can be hours of work, but you can avoid tedious data entry, and save time by doing accurate, fast and efficient batch vehicle checking on Experian's Vehicle Stock Monitor.

## What is Vehicle Stock Monitor?

Vehicle Stock Monitor is a simple and effective web-based vehicle checking system. It allows users to upload files of up to 5000 vehicles for batch checking, so monitoring fleets of vehicles becomes a more streamlined and accurate process.

## How does it work?

Vehicle Stock Monitor has been designed with ease of use in mind. Your vehicle data can be uploaded in the form of a simple spreadsheet, the only data required is the VRM or VIN number, although providing both will return more accurate information.

Including vehicle mileage data in your upload file also allows Vehicle Stock Monitor to return mileage adjusted vehicle valuations when a full check is being carried out.

The vehicle data itself is returned in spreadsheet format for easy management and filing of the information.

## The benefits of Vehicle Stock Monitor

The ease with which you can upload large numbers of vehicles means that Vehicle Stock Monitor can become an invaluable time saving tool. Reports are fully customisable according to your job requirements, see overleaf for the full list available. The system allows you to choose what data you would like returned on your uploaded vehicles, including a Gold Check with data insurance, so you can have all the details you require on a vehicle from one place.

**Vehicle stock file maintenance**

Information about using the Vehicle Stock Monitor services can be found in the [read help](#) page.

**Upload a file for processing**

Enter the location of your file (we recommend .xls format) then click **Upload file**

---

**Uploaded files**

Filename	Size (KB)	Uploaded
<input checked="" type="checkbox"/> VRM.xls	14	03/11/2008 09:58:30 <input type="button" value="Delete"/>

---

**Gold Check**

Franchise:  Manufacturers Branded Certificate  
BMW APPROVED PDF DATA ONLY

Also request:  Mileage  CAP Values  Glass Values

Indemnity:  
- Level of cover: £  10k  20k  30k  40k  50k  
- Term of cover:  12  24  36 months

**Defined Report**

This option allows you to receive a customised set of data containing only those fields you choose.

If you require a change to your settings for this option, please contact your Experian Account Manager.

These checks are not infallible!

This screen enables you to choose to add a Gold report with your chosen level of indemnity on to your Stock Monitor Check. You can also select the 'Defined Report' option which allows you to customise the data you receive back in your report.
